

## Delta Data Promotes Two in Sales, Product Development

By Chris Larson December 17, 2018

Back-office software provider and consultant **Delta Data** has created a new position, chief sales officer, and promoted SVP of sales Bret Bange to fill the role. Bange, a four-year veteran of Delta, will report to CEO Whitfield Athey and oversee a five-person sales team.

The company also announced it has promoted Jason Davenport to VP of product development. He'll be a member of the firm's executive team and also report to Athey, a spokesman says. Davenport, who joined the firm in 2013, has been in charge of the strategic direction of Delta's asset management product suite.

The changes come at the end of a busy year for the Columbus, Ga.-based company, which launched several new products in 2018, including FundBlast and Proprietary Product Manager.
